

APPLICATION

Motorcycle Saddlebag Lids

This continuous hinge assembly demonstrates ER Wagner Manufacturing Company's engineering capabilities to incorporate multiple components to meet and exceed customer specified performance criteria. The "Over Center" C-Spring, provides a "detent" in the open and closed positions.

Decades of experience with continuous hinges and extensive spring design experience allows ER Wagner to help customers design hundreds of similar hinges. Our unique continuous hinge lines allow us to run complex hinges without secondary operations, which ultimately reduces costs for our customers.

Engineered Hinge

With over center C-Spring

Manufacturing tools and equipment utilized:

- Continuous Hinge Line Work Cell
- Semi-Automated Assembly Fixture to install C-Spring
- Certified Attribute Gages
- CMM Fixtures
