

APPLICATION

Automotive OEM
Air Bag Door

This delicate engineered stamping demonstrates ER Wagner Manufacturing Co. capabilities to manufacture complex stampings for safety items. This design includes: hemmed and coined edges to insure air bag does not get damaged during deployment.

Solid modeling, Finite Element Analysis (FEA) and design engineering capabilities allows ER Wagner to help design hundreds of custom stampings and assemblies that meet and exceed our customer's expectations.

Engineered Stamping

with hemmed and coined profiles

Manufacturing tools and equipment utilized:

- Progressive Stamping Die
- 300 Ton Press
- Certified Attribute gages
- Special in process packaging to protect part
